### Application for an intern position in environmental engineering.

Dear Sir or Madam,

Hello. My name is Guillaume Minot, I am a French engineering student currently residing in Sweden with the intention to pursue and complete a Master in Sustainable Energy Systems at Chalmers technical University, in Göteborg.

In my current position, I am looking for an internship to perform in the field of environmental engineering. More specifically, my formation in Chalmers has led me to learn about the connection between policy making and environmental engineering, which is why I'd like more specifically a position and a mission in relation to that. Some of the courses I followed relevant to that position were: *Environmental Policy Instruments*, *Sustainable energy futures*, *Energy systems modelling and planning* and *Technical change and the environment*.

This internship will mark the completion of my French studies, which means we will have to establish an internship convention with my French university, the ENSIAME located in Valenciennes, north of France. The internship must have a duration of around 5 months – 20 weeks.

As you can already tell, I happen to be from an international background; having studied in two countries, and am already familiarised in working in a diversified environment, skill and culture wise.

But besides studies, internationalisation is also one of my core values and occupy most of my free time, as I have been engaged as a volunteer in both CIRC (Chalmers International Reception Committee), the university's committee dedicated to the reception and integration of international students, as well as in ESN.

I am the president of the local section of ESN Göteborg, also similarly aimed at receiving and integrating higher education internationals into the city and the country in general.

Through such experiences, I have learned many skills relevant to the workplace, such as team work, organisation, flexibility, and more.

Finally, regarding my personality: I consider myself as a patient and tempered man, always preferring humour and a nice atmosphere to conflict.

My leisures include video games and watching movies when I have the time (and, for Sweden specifically, the budget!). I bike a lot within the city and would love to bike to the workplace if I have the possibility to! And I also regularly practice beginner level Taekwon-Do – recently graduated to the 9<sup>th</sup> grade! (white and yellow belt).

In hope to hear from you soon, I thank you for your time and your consideration,

Best regards/med vänliga hälsningar.

Guillaume Minot.

## PERSONAL INFORMATION

Guillaume Minot

📍 Mejerigatan 2A, Rum 273, 41276 Göteborg (Sweden)

Sex Male | Date of birth 11 Mar 1994 | Nationality French

## Internship in environmental engineering

## WORK EXPERIENCE

1 Sep 2015–15 Jan 2016

**Intern**

18 weeks placement in the lab facilities of the UiA (University of Agder) Grimstad, in Norway, on the following subject: "Solid Oxide Fuel Cells – development of Novel single cells", focused on solid oxide fuel cell technology, part of the *EUREKA* research platform (European fund).

Theoretical approach, data collecting, experimenting and chemical preparations, under the supervision of Peter Hugh Middleton, professor at the UiA.

Reference: Professor Peter Hugh Middleton, department of engineering sciences.

## EDUCATION AND TRAINING

3 Jul 2017–15 Jul 2017

Participant in the summer course organized by BEST (Board of European Students of Technology) in Leuven, Belgium. Course centred around carbon neutrality and climate change, through lectures, workshops and a final examination as a group project supervised by both *Leuven Municipality* and *KU Leuven*.

Aug 2016–Jun 2017

1-year exchange in Chalmers University of Technology in the city of Göteborg, Sweden, following courses from the Master Program in Sustainable Energy Systems (MPSES).

2014–Present

Engineering student at the ENSIAME National Engineering Higher Institute (Valenciennes, France), in the Mechanic and energetics section. Currently final year. Further specialization in environmental engineering.

2012–2014

Two years of prep school in Paris, France, an intensive undergraduate level course in Mathematics and Physics.

2011–2012

Graduated with the French Baccalauréat in Sciences (equivalent to A-levels) with honours.

## PERSONAL SKILLS

Mother tongue(s)

French

Other language(s)	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	C2	C1	C1	C2	C2
TOEFL iBT					
Spanish	B1	B2	B1	B1	B2
CLES 1 (B1 level equivalent)					
Swedish	A1	A2	A1	A1	A1
Learning/participating in language cafés					

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user  
Common European Framework of Reference for Languages

**Extracurricular activities** January 2017 onwards: Active board member of CIRC: Chalmers International reception committee, aimed at organizing activities towards incoming international students of CHALMERS. More than 1000 students received between January and September 2017.

January 2017 onwards: *Local representative* then *president* of ESN Göteborg, part of the Erasmus Student Network (ESN). Organising inclusive activities aimed at internationals all over Göteborg.

#### ADDITIONAL INFORMATION

**Sports** Biking  
Tae-Kwon-Do
